

REMARKS

FORMAL MATTERS:

Claim 22 is now pending in this application.

Claims 1-21, 23 and 24 have been canceled from the application.

Claim 22 has been amended to more particularly point out and distinctly claim the invention.

The amendments to claim 22 are fully supported within previously pending now canceled claims 21 and 24. No new matter has been added. Further, since applicants have amended the claim to incorporate limitations contained within previously pending now canceled claims the amendment is believed to be proper under 37 C.F.R. §1.116 and its entry is respectfully requested.

OBJECTIONS TO DRAWINGS

The drawings were objected to due to a phrase contained within previously pending now canceled claim 7. In view of the cancellation of this claim the objection is believed to have been overcome.

REJECTION UNDER 35 U.S.C. §102

Claims 1 and 23 were rejected under 35 U.S.C. §102 as anticipated by Forestelle. The rejection has been rendered moot in view of the cancellation of claims 1 and 23. However, applicants point out that newly amended claim 22 includes reference to the human tissue as being present within the container. The human tissue is positively recited as an element of amended claim 22. Accordingly, such is not merely and intended use.

OTHER REJECTIONS

Numerous rejections were made based on the previously pending claims. It is applicants position that these rejections have been rendered moot in view of the cancellation of these claims and the amendments made to claim 22.

The cited art clearly does not disclose a container as recited within claim 22 which comprises a human tissue sample. Further, the art does not disclose such a container wherein the projections further comprise a removably attached identification panel comprising identification information which

identifies the human tissue sample. In view of such the rejections are believed to have been overcome and reconsideration and allowance of the application are respectfully requested.

Applicants have filed this response with a Revocation and New Power of Attorney which links the above-referenced patent application to Customer Number 24353. Applicants also have filed a petition and petition fee for a one month extension of time. If the Patent Office determines that additional petitions including petitions for extensions of time or additional fees are required applicants petition for any additional required relief and authorize the Commissioner to charge the costs of such petitions to our Deposit Account No. 50-0815, order number ARDS-001.

Respectfully submitted,
BOZICEVIC, FIELD & FRANCIS LLP
